OBJECTIVE

I am a Bachelor of Engineering student specializing in Artificial Intelligence and Data Science at Vidyavardhini's College of Engineering and Technology, Mumbai. I am passionate about leveraging technology to solve complex problems and am developing strong skills in programming and software development.

With a keen interest in AI and computer engineering, I am eager to apply my knowledge in a professional setting. I am committed to continuous learning and actively seeking entry-level opportunities to contribute and grow in these fields.

EDUCATION

Bachelor of Engineering - BE, Artificial Intelligence and Data Science Expected 2027
Vidyavardhini's College of Engineering and Technology, Mumbai

12th Pass 2021 - 2023
Thomas Baptista Junior College, Vasai

Technical Member, NSDC & PAT Cell *July 2024 - Present*
Vidyavardhini's College of Engineering and Technology, Mumbai

Responsibilities: Provided technical support for student initiatives, assisted with workshops, and collaborated on improving placement strategies through data analysis.

PROJECTS

Quantum Habits - Daily habit checklist: A terminal-themed habit tracking application that brings a cyberpunk aesthetic to your daily routine management. Built with Next.js, TypeScript, and Framer Motion. ([venture In](#))

EduInsight – Your Gateway to Free Engineering Courses. Built a full-stack web platform to collect and categorize free engineering courses from various platforms, integrated search and filtering features with a futuristic, responsive UI to enhance user experience. Focused on accessibility, speed, and a clean, modern interface. ([Venture In](#))

Nutri AI - AI-Driven Virtual Assistant. Diet planning application that helps users create personalized meal plans based on their dietary preferences, budget constraints, and nutritional goals. ([Venture In](#))

Random Activity Generator: A sleek and fun web app that helps you beat boredom by suggesting random activities based on your mood or interest — from outdoor adventures to relaxing indoor ideas. This project is developed for the Code Circuit Hackathon. ([Venture In](#))
